Breyer has released 5 prior award winning albums (list below) with 'Amor Aeternus' being her 6th and most substantial work so far. She has undertaken a worldwide radio campaign and is hoping to have the opportunity to discuss the reason and background for the composition as much as possible. "I hope it is a transformative experience for listeners which will transcend barriers and unite people during this turbulent time in our world".

British born and conservatory educated, at Trinity College of Music in London, Heidi Breyer now resides in the artistic community of Frenchtown, New Jersey, where she composes her music, prepares for her solo, large-scale and multi-media concerts and manages the prolific career of her husband world-renowned Russian painter, Alexander Volkov.

From the many reviews, this quote characterizes Heidi's music most succinctly- "Breyer's control of nuance and shading is a marvel throughout, no matter what tempo, volume, or mood she is playing. Yet, what is just as striking is the sense of intimacy, the immediateness of her performance... *Moonlight In Empty Rooms* is as deeply felt and masterfully recorded an album as I have heard... Special seems wholly inadequate in describing this work from a truly gifted artist." Bill Binkelman Retailing Insight/ Wind and Wire.
